- YTD 2006 one Alice Fazooli's!® renovation was completed. This brings the total renovated Alice Fazooli's!® since the Initial Public Offering ("IPO") to four of the five Alice Fazooli's!® restaurants. - During Q2 of 2006, the Jack Astor's® in Don Mills, Ontario was closed. This location has been demolished by the landlord and is to be redeveloped into a major "lifestyle mall". It is expected that this project will be completed in the second half of 2008 and a new Jack Astor's® would open in this location at that time. SIR is required to pay a Make-Whole Payment for this location from the date of the closure until December 31, 2006. On January 1, 2007, the revenue of the closed restaurant will be netted against the revenue of the new SIR Restaurants opened from November 2, 2005 to November 1, 2006, to determine the number of Class B GP units of the partnership, held by SIR, which can be converted into Class A GP units of the Partnership.
- On May 24, 2006 the Trustees authorized a 5.0% distribution increase to Unitholders. The monthly distributions increased from $0.100 per unit to $0.105 per unit beginning with the distribution paid in June 2006. This will increase the estimated annualized distribution from $1.20 to $1.26.
- On October 31, 2006, the Federal Department of Finance announced a "Tax Fairness Plan" that proposes changes to the manner in which distributions from publicly listed flow-through entities ("FTE's") including income funds are taxed. The Trustees of the Fund and senior management of SIR will continue to monitor this development.

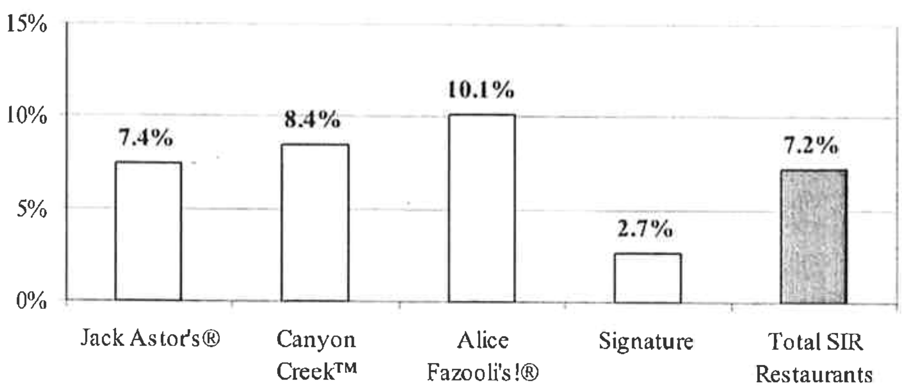
Same Store Sales Growth for the 9-month period ended September 30, 2006 vs same period in prior year



SIR reported to the Fund that SSSG was 3.7% for Q3 of 2006 compared to prior year. SSSG was 7.2% for the YTD of 2006 compared to the YTD prior year.

SIR's Management attributes the strong YTD performance of Jack Astor's® in large part to evolutions of existing restaurants, which include changes in menu, staff uniforms and restaurant décor. The evolution program started in 2004 and now only 1 of the Jack Astor's® currently operating remains to be evolved. Average sales increases in evolved Jack Astor's® restaurants are in excess of 10% in the year of evolution and an average of 4% over and above their first-year increases for restaurants now in their second year following evolution. The velocity of the Jack Astor's SSSG slowed somewhat in Q3 as 47% of the evolved locations are now in their second year following the evolution and another 21% are in their third year following the evolution. Additionally, patio sales were softer in Q3 of 2006 compared to prior year. SIR's management attributes the softer patio sales to less favourable weather this summer and the negative effect that the Smoke-Free Ontario Act (effective May 30, 2006) had on some of our patios and bars (those which previously were Designated Smoking Rooms). SIR's management believes the negative effect of the Smoke-Free Ontario Act will be mitigated over time as non-smoking guests replace smoking guests and smoking guests return.

Canyon Creek™ continues to perform well, with SSSG of 8.2% during Q3 2006 compared to the prior year. SSSG was 8.4% for the YTD of 2006 compared to the YTD of 2005.

The performance of Alice Fazooli's!® continues to improve. SSSG in Q3 of 2006 was 11.3%. YTD SSSG was 10.1% compared to prior year. This YTD growth was achieved even though the dining room of the Alice Fazooli's!® in downtown Toronto was closed for nine days during the first quarter for renovations. Since the IPO, renovations have been completed at four of the five locations. Subsequent to Q3, the Alice Fazooli's! in Mississauga was closed for 9 days for renovations and an expansion of the bar. All of the Alice Fazooli's!® have now been renovated since the IPO.

During Q3, the Signature Restaurants, which are located in downtown Toronto, experienced a sales decline. The decline was largely due to sales lost during the 11 day shut-down of reds® during Q3 for renovations. SIR's management is pleased with the results of the renovations at reds®. Brasserie Frisco™ revenues in Q3 were below prior year. The Armadillo Texas Grill®/the Loose Moose® revenues were also below the prior year during Q3. These declines in Q3 were partially offset by positive SSSG at Far Niente®/Soul of the Vine®. On a YTD basis the SSSG for the Signature Restaurants remains positive at 2.7%.

During Q1 and part of Q2 of 2005, the NHL lockout had a significant negative effect on the revenue of the Signature Restaurants. The same group of restaurants benefited from the end of the lock-out over the same period in 2006. In addition, Signature Restaurants' sales benefited from increased sales at Far Niente® after major renovations in the fall of 2005.

Restaurant Renovations and Advertising

SIR has been deploying a significant portion of the proceeds of the Fund's IPO to invest in its existing restaurants to drive SSSG. As at September 30, 2006 evolutions of 19 Jack Astor's® restaurants had been completed (four of these had been completed prior to the IPO). These evolutions continue to drive strong SSSG in Jack Astor's®. The renovations at four of the five Alice Fazooli's!® restaurants, which were completed during 2005 and the first quarter of 2006, have also delivered strong SSSG in excess of 10%. The renovation of the fifth location, Alice Fazooli's!® Mississauga was completed in October 2006. A renovation was completed at reds® during Q3 of 2006 (from August 28 to September 7, 2006). During mid-October 2005 through November 7, 2005, extensive renovations were completed at Far Niente® in downtown Toronto. These renovations are driving increased guest counts and SSSG at Far Niente®

Since the IPO, SIR has increased its investment in marketing initiatives. In particular, Jack Astor's® with 22 restaurants (which in Q3 of 2006 represents approximately 66% of Pooled Revenue) has benefited from radio-based campaigns created by a leading North American advertising agency.

New and Closed Restaurants

SIR opened two new restaurants during the Fund's fiscal 2005 year: Jack Astor's® at Front Street and University Avenue in downtown Toronto in February 2005, and Jack Astor's® in Whitby, Ontario, at the end of August 2005. These restaurants became part of the Royalty Pooled Restaurants on January 1, 2006, at which time the SIR Royalty Limited Partnership (the "Partnership") paid SIR, in Partnership securities exchangeable for Units of the Fund, an amount intended to reflect the value to the Partnership of the increased future Royalty stream related to these restaurants, in accordance with the formula described in the License and Royalty Agreement. This adjustment for new revenues that will be part of the Royalty pool is designed to be accretive for Fund Unitholders.

A new Canyon Creek™ restaurant was opened in Q3 of 2006 at the Fallsview Casino Resort in Niagara Falls, Ontario. Two other Canyon Creek™ restaurants were opened earlier in the year (Scarborough, Ontario in Q1 and Vaughan, Ontario in Q2) bringing the YTD 2006 openings to three. Each of these three restaurants is expected to be added to the Royalty Pooled Restaurants effective January 1, 2007.

One Royalty Pooled Restaurant has been closed since the IPO was completed. On May 27, 2006 the Jack Astor's® in Don Mills, Ontario was closed. This location has been demolished by the landlord and is to be redeveloped into a major "lifestyle mall". It is expected that this project will be completed in the second half of 2008 and that a new Jack Astor's® would open in this location at that time. Under the terms of the License and Royalty Agreement, SIR is required to pay a Make-Whole Payment for this location from the date of the closure until December 31, 2006. In accordance with the License and Royalty Agreement, on January 1, 2007, the revenue of the closed restaurant will be netted against the revenue of the new SIR Restaurants opened from November 2, 2005 to November 1, 2006, to determine the number of Class B GP units of the SIR Royalty Limited Partnership (the "Partnership"), held by SIR, which can be converted into Class A GP units of the Partnership

SIR has secured two additional sites for Jack Astor's restaurants which are planned to open in 2007. These sites are located in Hamilton, Ontario and Dartmouth, Nova Scotia.

Distributions

Distributions to Unitholders are intended to be made monthly in arrears based on distributable cash and cash redemptions of Fund Units and subject to the Fund retaining such reasonable working capital and other reserves as may be considered appropriate by the Trustees of the Fund. The Fund's intention, with the assistance of SIR, is to pay even distributions, and if possible, allow the Fund to maintain consistent monthly distributions to Unitholders. The Fund intends to make monthly distributions of its available distributable cash to the maximum extent possible and has paid its expected monthly cash distribution of $0.10 per Unit per month since inception. On May 24, 2006 the Trustees authorized a 5.0% distribution increase to Unitholders. The monthly distributions increased from $0.10 per unit to $0.105 per unit beginning with the distribution paid in June 2006. This will increase the estimated annualized distribution from $1.20 to $1.26.

The payout ratio of cash distributed to distributable cash is intended to average 100% per annum over the longer term. Since the Fund pays even monthly distributions when it's underlying cash flow from the Partnership is subject to seasonal fluctuations (as experienced by SIR), there are times during the year when the payout ratio may exceed 100%. During Q3 of 2006 the payout ratio was strong at 95.9%, compared to 97.1% in Q3 of 2005. YTD, the payout ratio in 2006 was 94.0% compared to 102.6% for the same period in 2005.

Overview and Business of the Fund

On October 1, 2004, the SIR Royalty Income Fund (the "Fund") filed a final prospectus for a public offering of Units of the Fund. The net proceeds of the Offering of $51,166,670 were used by the Fund to acquire, directly, certain bank debt of SIR and indirectly, through SIR Holdings Trust (the "Trust"), all of the Ordinary LP Units of the Partnership. The Partnership owns the Canadian trademarks (the "SIR Rights") formerly owned or licensed by SIR or its subsidiaries and used in connection with the operation of the majority of SIR's restaurants in Canada. The Partnership has granted SIR a 99-year license to use the SIR Rights in most of Canada in consideration for a Royalty, payable by SIR to the Partnership, equal to 6% of the revenue of the restaurants included in the royalty pool (the "License and Royalty Agreement"). The Partnership also issued its own securities to SIR in return for the SIR Rights acquired. The Fund, indirectly, participates in the revenue generated under the License and Royalty Agreement through its investment in the Partnership.

The Fund intends to make monthly distributions of its available cash to the maximum extent possible. Monthly distributions of $562,450 or $0.105 per Unit were declared for each of the months in the third quarter of 2006. Subsequent to September 30, 2006, a distribution of $0.105 per Unit was declared and paid for the month of September 2006 and a distribution of $0.105 per Unit was declared for the month of October 2006.

The Units of the Fund are publicly traded on the Toronto Stock Exchange under the symbol SRV.UN.

Overview and Business of SIR and the Partnership

SIR is a private company amalgamated under the Business Corporations Act of Ontario. As at September 30, 2006, SIR operated 38 Concept Restaurants and Signature Restaurants in Canada (in Ontario, Quebec, Alberta and Nova Scotia). The Concept Restaurants are Jack Astor's® Bar and Grill, Canyon Creek Chop House® and Alice Fazooli's!®. The Signature Restaurants are *reds*®, Far Niente®/Soul of the Vine®, Brasserie Frisco™, and the Armadillo Steak House®/Loose Moose Tap & Grill®. For the nine month period ended September 30, 2006, 36 SIR Restaurants were included in the SIR Royalty Pooled Restaurants. A new Canyon Creek™ restaurant was opened in Scarborough, Ontario in March 2006, a second new Canyon Creek™ restaurant was opened in Vaughan, Ontario in May 2006, and a third new Canyon Creek™ restaurant was opened at the Fallsview Casino Resort, in Niagara Falls, Ontario in August 2006. These restaurants are expected to be added to the Royalty Pooled Restaurants in January 2007. In May 2006 the Jack Astor's® in Don Mills, Ontario was closed. Based on the terms of the License and Royalty Agreement, SIR is required to pay a Make-Whole Payment in respect of the lost royalty resulting from the reduction in revenue of this closed restaurant. As a result, the Jack Astor's® in Don Mills Ontario effectively remains part of the Royalty Pooled Restaurants until December 31, 2006. SIR owns 100% of all its Canadian restaurants, except for Don Mills (50%). SIR also has an investment in a Jack Astor's® restaurant in the USA which is not included in the SIR Royalty Pooled Restaurants.

The Partnership has granted SIR a 99-year license to use the SIR Rights in most of Canada in consideration for a Royalty, payable by SIR to the Partnership, equal to 6% of the revenue of the restaurants included in the royalty pool. The Partnership also issued its own securities to SIR in return for the SIR Rights acquired.

As at September 30, 2006, SIR retained a 16.2% interest in the Partnership as the holder of the 1,034,005 Class A GP Units of the Partnership. The Class A GP Units are entitled to receive a pro rata share of all residual distributions of the Partnership and are exchangeable into Units of the Fund on a one for one basis. SIR agreed to subordinate distributions on its initial (retained at the time of the IPO) 595,185 Class A GP Units for a minimum of two years, subject to certain terms.

Subordination is expected to continue until at least August 26, 2007. In addition, SIR is obligated to pay the Partnership a "Make-Whole Payment", subject to certain terms, initially equal to the amount of the Royalty that otherwise would have been paid to the Partnership in the event of a permanent closure of a restaurant in the Royalty pool. SIR is not required to pay any "Make-Whole Payment" in respect of a closed restaurant in the Royalty pool following the date on which the number of restaurants in the Royalty pool is equal to or greater than 68, or following October 12, 2019, whichever occurs first. During the second quarter, SIR closed one restaurant and accordingly is required to pay a Make-Whole Payment of $0.1 million, payable in equal monthly instalments to December 31, 2006. However, other adjustments or payments may still be required in respect of closed restaurants after such date by SIR, depending upon the circumstances. On January 1 of each year (the "Adjustment Date") following December 31, 2005, the restaurants subject to the License and Royalty Agreement are adjusted for new restaurants that have been open for at least 60 days prior to the Adjustment Date and which were not previously included in the Royalty Pooled Restaurants. At each Adjustment Date, SIR will be entitled to convert its Class B GP Units of the Partnership to Class A GP Units of the Partnership based on a conversion formula defined in the Agreement.

On January 1, 2006, two new SIR Restaurants were added to SIR's Royalty Pooled Restaurants in accordance with the License and Royalty Agreement. In exchange for the additional royalty stream from these new restaurants, 438,820 Class B GP units were converted to 438,820 Class A GP units based on a formula defined in the Partnership agreement as the Initial Adjustment. As a result of this exchange, SIR's interest in the Partnership increased to 16.2% effective January 1, 2006. Under the formula as defined in the Partnership Agreement the number of Class A GP Units issued to SIR on the Initial Adjustment date are equal to only 80% of the estimated value of the additional royalty revenue. Additional Class B GP units may be converted to Class A GP units in respect of these new SIR Restaurants if the actual revenues of the new SIR Restaurants exceed 80% of the January 1, 2006 Initial Adjustment's estimated revenue applied to the formula defined in the License and Royalty Agreement and the Partnership agreement. Conversely, Class A GP units would be converted to Class B GP units by SIR if the actual revenues of the new SIR Restaurants are less than 80% of the January 1, 2006 Initial Adjustment's estimated revenue. In December of each year, an additional cash distribution ("Additional Distribution") may be payable to the Class B GP Unitholders based on actual revenues of the new SIR Restaurants exceeding 80% of the Initial Adjustment's estimated revenue or there may be a reduction in the cash distributions to the Class A GP Unitholders if revenues are less than 80% of the Initial Adjustment's estimated revenue. The additional distribution results in an adjustment to SIR's share of the Partnership income to reflect the actual contribution of the revenues of the new SIR Restaurants for fiscal 2006. As this amount can not be calculated until December 31st, when the actual revenues for the New Additional Restaurants are known, the effect of this adjustment is not included in the results of quarters one through three. Currently, SIR's management expects the revenues of the new SIR Restaurants to exceed 80% of the Initial Adjustment's estimated revenue since the revenues YTD September 30, 2006 for the previously mentioned new SIR Restaurants have already exceeded 80% of the Initial Adjustment's estimated annual revenue. As a result, additional Class A GP units are expected to be issued to SIR and an Additional Distribution is expected to be declared for December 2006, and paid in cash to SIR in January 2007.

SIR's Fiscal Year is comprised of 13 periods of four weeks each, ending on the last Sunday in August. To preserve this Year End, an additional week must be added approximately every five years. Fiscal quarters of SIR consist of accounting periods of 12, 12, 12 and 16 (or 17) weeks.

Consolidated financial statements of SIR for its fiscal 2005 Year End and its subsequent Quarterly Accounting Periods can be found at www.sedar.com.

Seasonality

The full service restaurant sector of the Canadian foodservice industry, in which SIR operates, experiences seasonal fluctuations in revenues. Favourable summer weather generally results in increased revenues during SIR's fourth quarter (ending the last Sunday in August) when patios can be open. Additionally, certain holidays and observances also affect dining patterns both favourably and unfavourably. Accordingly, distribution income recognized by the Fund will vary in conjunction with the seasonality in revenue experienced by SIR. The Fund's intention, with the assistance of SIR, is to pay even distributions in order to reduce the effect of seasonality, and if possible, allow the Fund to maintain consistent monthly distributions to Unitholders.

Selected Consolidated Financial Information

The consolidated financial statements of the Fund are presented in Canadian dollars and are prepared in accordance with Canadian generally accepted accounting principles ("GAAP") and include the accounts of the Fund and its subsidiaries, namely the Trust and SIR GP Inc. The information in this Management's Discussion and Analysis ("MD&A") should be read in conjunction with the third quarter unaudited interim consolidated financial statements of the Fund, including the notes thereto.

(9) Distributable cash is a non-GAAP financial measure and does not have a standardized meaning prescribed by GAAP. However, the Fund believes that distributable cash is a useful measure as it provides investors with an indication of cash available for distribution. The Fund's method of calculating distributable cash may differ from that of other issuers and, accordingly, distributable cash may not be comparable to measures used by other issuers. Investors are cautioned that distributable cash should not be construed as an alternative to the statement of cash flows as a measure of liquidity and cash flows of the Fund.

Distributable cash represents the amount of money which the Fund expects to have available for distribution to Unitholders of the Fund, and is calculated as cash provided by operating activities of the Fund, adjusted for the net change in non-cash working capital items.

(10) It is the Fund's intention, with the assistance of SIR, to pay even distributions to reduce the effect of seasonality. Higher payout ratios during the colder months of the year are expected with the pattern of seasonality in the business, and it is anticipated that the payout ratio will decrease on average during the warm weather months.

(11) Diluted distributable cash per Fund Unit for the 3-month and 9-month periods ended September 30, 2006 are calculated as follows: Distributable cash of $1.8 million and $5.2 million respectively (2005 - $1.7 million and $4.7 million) plus the distributions related to the Class A GP Units of $0.3 million and $1.0 million respectively (2005 - $0.2 million and $0.5 million) divided by the fully diluted Fund Units of 6,390,672 (2005 – 5,951,852). Fully diluted Fund Units represents Fund Units of 5,356,667 plus the convertible Class A GP Units of 1,034,005 (2005 - 595,185).

Distributions to Unitholders are intended to be made monthly in arrears based upon distributable cash and cash redemptions of Fund Units and subject to the Fund retaining such reasonable working capital and other reserves as may be considered appropriate by the Trustees of the Fund. The Fund's intention, with the assistance of SIR, is to pay even distributions, and if possible, allow the Fund to maintain consistent monthly distributions to Unitholders. The Fund intends to make monthly distributions of its available distributable cash to the maximum extent possible and has at minimum paid its expected monthly cash distribution of $0.10 per Unit per month since inception. On May 24, 2006 the Trustees authorized a 5.0% distribution increase to Unitholders. The monthly distributions increased from $0.10 per unit to $0.105 per unit beginning with the distribution paid in June 2006. This will increase the estimated annualized distribution from $1.20 to $1.26.

Pooled Revenue

The Fund is indirectly dependent on the amount of the Royalty paid by SIR to the Partnership. The amount of this Royalty is dependent on Pooled Revenue. Pooled Revenue is the revenue of the SIR restaurants included in the Royalty Pooled Restaurants. For the nine month period ended September 30, 2006, there are 36 restaurants in the royalty pool (34 as at September 30, 2005). Increases or decreases in Pooled Revenue are derived from same store revenue growth or decline, and new or closed SIR Restaurants subject to the SIR Rights. Pooled Revenue is affected by the risks associated with the operations and financial condition of SIR, the commercial foodservice industry generally and the casual and fine dining segment of the commercial foodservice industry in particular. The following table sets out Pooled Revenue for the three and nine month periods ended September 30, 2006 and September 30, 2005:
